

# SCOPE Registration Form and Consent to Participate in SCOPE Research Study

Please complete this form and fax back to (416) 521-4146 (Attn: Liz Gabison - SCOPE Navigator)

# **Consent to Participate in SCOPE Research Study**

You are being invited to take part in a research study. Before agreeing to participate in this study, it is important that you read and understand the proposed study procedures.

## **BACKGROUND**

SCOPE is a collaboration between Women's College Hospital (WCH), University Heath Network (UHN), Mount Sinai Hospital (MSH), St. Joseph's Health Centre (SJHC), Sunnybrook Health Sciences Centre (SHSC), St. Michael's Hospital (SMH), Michael Garron Hospital (MGH), Scarborough Health Network (SHN), William Osler Health System, Ontario Health Central Region Home & Community Care, Canadian Mental Health Association Peel Dufferin (Central West OHT'), Humber River Hospital (HRH), Halton Healthcare, North York General Hospital and the TC LHIN Home & Community Care that aims to reduce utilization and improve the health care experience of complex patients. SCOPE provides a platform through which primary care providers (PCP) can link their patients to a range of services.

### **ELIGIBILITY**

Eligible persons include community-based PCPs with practices located in the Greater Downtown Toronto area, North Toronto, the Central West OHT catchment area, and the Halton Healthcare region.

### **INTERVENTION**

PCPs enrolled in SCOPE are provided with a one-number to call service with extensions to:

- 1. Direct General Internal Medicine Consultations
- 2. TC LHIN Home and Community Care Coordination and Ontario Health Central Region Home and Community Care Coordination
- 3. Acute Care Nurse Navigator
- 4. Medical Imaging

### **EVALUATION**

For the evaluation of SCOPE we will be tracking the number, pattern and outcome of each contact made to SCOPE. No identifying patient information will be collected. The study will use various techniques to elicit feedback and optimize the SCOPE platform to best meet the needs of you and your patients:

- Experience of Care Survey one-time 5-min online survey that will help us better understand your perceptions of the health care system and your ability to care for complex patients.
- User Feedback Surveys a 2-min survey will be emailed to you following your first 5 calls to SCOPE services, you will be asked about your satisfaction with the service and suggestions for improvement.
- Testing of Intervention Design to update you on the study and provide information on new services, your office will be contacted by the SCOPE team using a variety of methods (e.g. email, fax, telephone) in order to find the ideal approach.

You may also be approached and asked to partake in a qualitative interview; further information and an additional consent form will be provided at this time.

### **RISKS**

There are no known risks with participating in this study.

### **POTENTIAL BENEFITS**

You may or may not directly benefit from your participation in this study. This project is intended to provide additional support to you and your patients.

#### **CONFIDENTIALITY**

Any personal information collected or obtained, whether you choose to participate or not, will be kept confidential and protected to the fullest extent of the law. All personal information collected will be stored on a secure server at Women's College Hospital, and any data collected for the purposes of the research study will be stored in separate password-protected files. The study staff, the WCH Research Ethics Board, employees of sponsor or funder of study, and Health Canada may look at your personal information for purposes associated with the study. The mentioned authorized personnel may view your records only under the supervision of the Principal Investigator and will be obligated to protect your privacy and not disclose your personal information. None of your personal information will be given to anyone without your permission unless required by law. Following completion of the research study the data will be kept as long as required then destroyed as required according to WCH policy. Published studies will not reveal your identity.

### **VOLUNTARY PARTICIPATION**

Your participation in this study is completely voluntary and you may withdraw at any time. Your decision whether or not to participate in the study will not influence any future relationships with WCH or any of the participating SCOPE organizations.

#### **RIGHTS AS A PARTICIPANT**

By signing this form, you do not give up any of your legal rights against the investigators, sponsor or involved institutions for compensation, nor does this form relieve the investigators, sponsor or involved institutions of their legal and professional responsibilities. Participation in this study does not require you to sign a waiver and does not affect your legal rights or liability.

If you have any questions about the research study please contact the SCOPE Research Coordinator, Patricia Rios, at 416-323-6400 x5948 or patricia.rios@wchospital.ca.

If you have any questions about your rights as a research participant, please contact either Melissa Sidhu, Coordinator of the WCH Research Ethics Board at 416-351-3732 x2723, or the WCH Research Ethics Board Chair, Dr. Nancy Walton, at 416-351-3732 x2325.

#### **CONSENT**

By checking "I agree" below you are indicating that you are at least 18 years old, have read and understood this conse to yo

form and vo	oluntarily consent	t to participate in t	this research st	udy. A copy of th	ne consent form v	vill be sen
